**Four-sided core  
for more  
shooting surface!**

## GlenDel®

**One Big 3-D Target!**

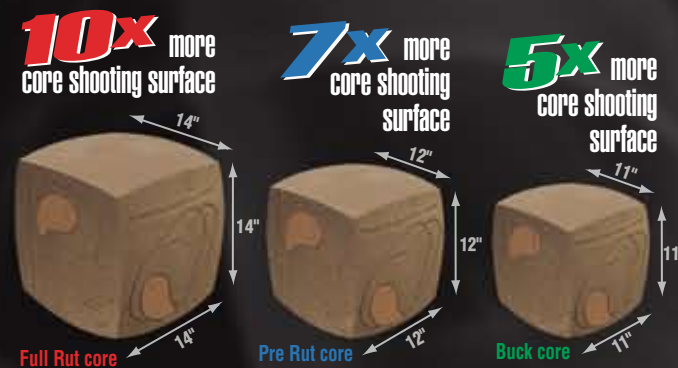

## GlenDel... big 3-D targets with big, 4-sided shooting cores!

Be prepared for a big buck by practicing on a big buck! GlenDel 3-D archery targets are big. Their body size is comparable to bucks between 200 lbs. and 300 lbs. This prepares you for when that monster buck steps into your shooting lane! It also allows for GlenDel's legendary, oversized, 4-sided cores that have far more shooting surface than the competition.

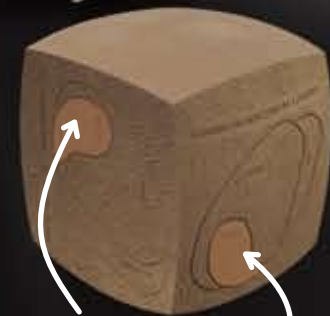

### More core shooting surface means more shots, fewer misses!

The oversized shooting cores in a GlenDel target give you dramatically more core shooting surface to shoot at than competitive 3-D targets. And, more core shooting surface means a longer lasting core and fewer missed shots!

### Stops

- Field tips
- Broadheads
- Expandables

Offset Shooting Zones on all four sides

- PolyFusion design** - for even longer core life!
- Easier arrow removal** - means more practice, less fatigue
- Four-sided core** - rotate the core to take even more shots
- Replaceable cores** - available for all 3 GlenDel targets!

### GrandStand 3-D Target Stand

No more pounding pegs... Grand Stand holds any 3-D target. TwistLock™ telescoping axle lets you adjust stand width. Twist to lock in place!

**\$29<sup>99</sup>**

## GlenDel Full Rut **10x** more core shooting surface

The **GlenDel Full Rut** is the largest 3-D deer target you can buy! If you hunt big bucks you'll want to practice on the biggest buck target of all!

Body size: **Size of a 300 lb. live weight deer**  
 Shoulder height: **Stands 37" at the shoulders**  
 Rack size: **150" Boone & Crockett antlers**  
 Core size: **14" x 14" x 14"**  
 Core surface: **10X more than other 3-D cores**  
 MSRP: **\$269.99**

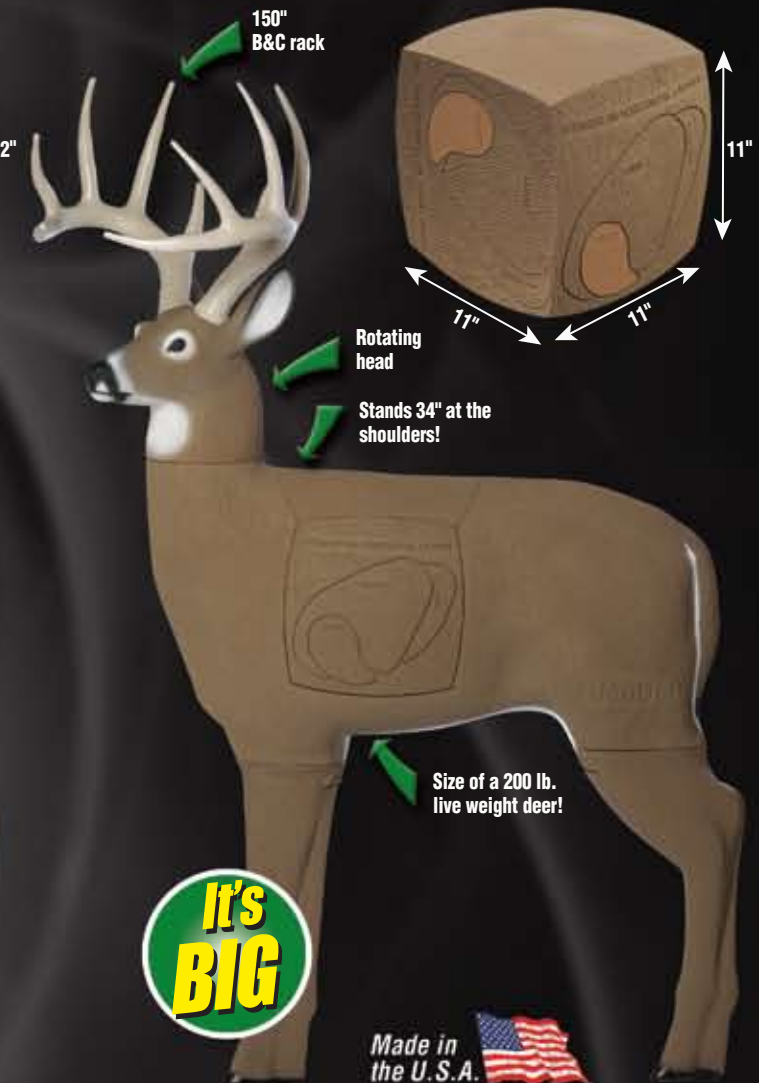

## GlenDel Pre Rut **7x** more core shooting surface

The all-new **GlenDel Pre Rut** fits right in the middle, It's just a little smaller than the Full Rut and just a little bigger than the Buck!

Body size: **Size of a 250 lb. live weight deer**  
 Shoulder height: **Stands 36" at the shoulders**  
 Rack size: **150" Boone & Crockett antlers**  
 Core size: **12" x 12" x 12"**  
 Core surface: **7X more than other 3-D cores**  
 MSRP: **\$219.99**

## GlenDel Buck **5x** more core shooting surface

The **GlenDel Buck** is still a big buck – it's the body size of a 200 lb. live weight deer and offers 5 times the core shooting surface!

Body size: **Size of a 200 lb. live weight deer**  
 Shoulder height: **Stands 34" at the shoulders**  
 Rack size: **150" Boone & Crockett antlers**  
 Core size: **11" x 11" x 11"**  
 Core surface: **5X more than other 3-D cores**  
 MSRP: **\$159.99**
